Walsh College selects software security for use in the Virtual Remote Information Assurance Lab

TROY, Mich., December 4, 2009 – **Walsh College** has accepted an offer from Encryption Security Solutions/Pure Entropy Technologies to supply two software products for its encryption and authentication courses in the Information Assurance Center for use in the Virtual Remote Information Assurance Lab (VRIAL).

“It is imperative that our students in the Information Assurance program work with the best of breed in security technology – Encryption Security Solutions provided that to us,” says Nanette Poullos, director of the Information Assurance Center and associate professor at Walsh College. “The products are not only technologically superior, but easy to use and implement.”

Walsh selected encryptoSafe, encryption used for email and attachments, and encryptoStore, encryption for files and folders.

“We are delighted to work with Walsh College – it is fairly common knowledge that the students working with our software today either are or will be decision makers at corporations not only in our State, but throughout the Country and World,” says Kevin Lasser, chief executive officer of Encryption Security Solutions/Pure Entropy Technologies.

Both products will be utilized in Walsh Colleges Virtual Remote Information Assurance Lab (VRIAL), a state of the art learning laboratory that enhances learning with activities that students are able to fully use and implement.

ABOUT WALSH COLLEGE

Founded in 1922, Walsh College is Michigan’s largest graduate business school. The College offers upper-division undergraduate and graduate business and technology degree and certificate programs to 4,600 students in Troy, Novi, Harper Woods, Port Huron, and Clinton Township, as well as online. Walsh College is accredited by The Higher Learning Commission of the North Central Association of Colleges and Schools (www.ncahlc.org) and the International Assembly for Collegiate Business Education IACBE, www.iacbe.org). For more information, please visit www.walshcollege.edu.

Walsh College is designated as a Center of Academic Excellence in Information Assurance Education by the National Security Agency and Department of Homeland Security. The Master of Science in Information Assurance (MSIA) degree program combines theory with applied learning enabling security practitioners to be functional upon completing the degree. The program has been designed to meet the high demand for information assurance professionals in government, corporations and industry.
