

# Encryption Security Solutions encryptoStore™ Best in Class Security Products

In today's world, businesses struggle to keep their information safe from criminals working to steal social security numbers, credit card numbers, tax returns, etc. encryptoStore™ is a file encryption product used to protect information on your computer, laptop and/or computer Network. If your computer or laptop is stolen, your information cannot be compromised if you have protected your sensitive files and folders with encryptoStore™.

encryptoStore's™ AES 256 bit encryption offers security for all confidential information and sensitive files. With encryptoStore™ you have the ability to encrypt any file or folder of any size. Once they are encrypted they can remain on your computer or be copied to any removable storage device.

encryptoStore™ was designed to overcome employee resistance by making it extremely simple to encrypt and decrypt files.

**Encrypt and Protect** sensitive files in 3 easy steps:

1. Open encryptoStore from your Desktop
2. Drag and drop the file or folder on the encryptoStore™ Safe icon
3. Your encrypted files are saved automatically

### encryptoStore™ Highlights

- Secure AES 256 bit encryption
- Easy to use and requires minimal training (5 minute maximum)
- Low system overhead
- Cost effective & scalable to small, medium and large enterprises
- Compatible with virtually any version of Microsoft Windows™
- Allows you to encrypt any file of any size including folders loaded with data
- Automatic hard delete your unencrypted original
